List of Figures

- 1 Map of Shetland Islands
- 2 Map of Yell and Unst showing Isbister (above Ness of Burravoe)
- 3 Aerial shot of Kame Promontory
- 4 Aerial shot of Kame promontory showing rectangular structures
- 5 RM15 resistance meter with 0.5 m spaced probes.
- 6 FM256 fluxgate gradiometer.
- 7 Resistance survey data for the Kame of Isbister.
- 8 The surface view shows the geological and archaeological nature of the area. The red defines the bedrock. The low resistance rectangular anomaly is an archaeological feature (arrow).
- 9 Resistance survey results with outlined rectangular anomaly (red) and extending anomaly of interest (green)
- 10 Magnetic survey data from the Kame of Isbister.
- 11 Combined resistance and magnetic survey map for the Kame of Isbister. Resistance survey is the greyscale map on the bottom (same as Fig8). A contour map of the magnetic survey is overlain on the resistance map.
- 12 Magnetic contour map draped on resistance greyscale map with anomaly of interest identified.
- 13 Comparison of resistance (a) and magnetic (b) data in a magnetic contour overlay on resistance greyscale results (3)
- 14 SURVEY TO COME (VAL TURNER)
- 15 Trench 1, Plan 1
- 16 Trench 1, Section 1, West Facing
- 17 Trench 2, Section 2, South Facing
- 18 Trench 2, Section 3, West Facing
- 19 Trench 3, Plan 2
- 20 Trench 3, Section 4
- 21 Trench 4, Plan 1
- 22 Trench 5, Plan 1
- 23 Trench 6, Plan 5
- 24 Trench 5, Section 6
- 25 Trench 6, Section 7
