The Health Service

Young men and boys will be taught about the various real ales available and how to drink them safely at the same time as abandoning 'alien lagers' and alcopops.

Education

Non-vocational courses in the new universities will be closed down and tuition fees will be abolished.

Street Crime

Lock up serial offenders in new Super Prisons to be built in remote, unpopulated parts of the UK, and the problem will gradually go away.

Aid for Developing Countries

Aid will only be given if the target countries agree to be.

The Environment

Encourage people to cook their own food from basic ingredients, encourage small shops and hope that super markets whither away.

Terrorism

Prevent illegal aliens from entering the UK and monitor Muslims and the IRA closely.

Immigration/Asylum

We will stop all immigration and asylum immediately, the exception being white people coming from former colonies such as Rhodesia (now called Zimbabwe).

Transport

We need to encourage more people to work from home and encourage women back into being full time house wives.

Europe

We will withdraw totally from the EU 'superstate'.

Iraq

Our troops should be guarding our UK borders not attempting to impose Western "democracy" on aliens.
