### The Box Plus Network Limited

The Box Plus Network Limited ('Box'), incorporated and operating in the United Kingdom, broadcasts a number of music television channels on free-to-air and pay platforms. Box is accounted for as a joint venture and the investment reflects 500 ordinary shares of £1, representing 50% of the share capital of Box.

Annual impairment tests on Box's goodwill and intangible assets are based on their recoverable amounts determined from their value in use.

An impairment review was carried out by estimating the future expected cashflows for Box using a pre-tax discount rate of 11% (2014: 9%), reflecting the Group's estimated cost of capital for its commercial television segments and comprising a risk-free rate and an equity risk premium. Cashflows were based on management's best estimate of future performance to 2020, reflecting management's cautious view of the long-term potential in music viewing in commercial television. The present value of the cashflows accruing to the Group was compared with the carrying value of the investment held on the balance sheet. No impairment was required as a result.

Management has approved the forecast on which the cashflow analysis has been based and believes that there are currently no likely changes in revenues or discount rate which would reduce the value in use for Box down to a level where an impairment would arise.

There are no contingent liabilities and no capital commitments in respect of Box or other joint ventures to be included within the Group's financial statements. During 2015, Channel 4 received a dividend of £2.75 million (2014: £2.5 million) from Box. Channel 4 also sold £8 million (2014: £8 million) of services to Box including commissions earned on advertising sales and made payments on Box's behalf for other services including transmission, programme costs, brand royalties, marketing, facilities management, information systems, finance and other administrative support and pensions. Box owed Channel 4 £1 million at 31 December 2015 (2014: £1 million) in respect of these services. Channel 4 had no balances outstanding to Box at 31 December 2015 (2014: £nil) as no services were rendered by Box to Channel 4 in 2015 (2014: £nil).

### The Indie Growth Fund

During 2014, Channel 4 launched the Indie Growth Fund, a fund with the aim of nurturing the independent sector. The fund seeks to invest up to £20 million in a broad portfolio of television and digital companies. In 2015, Channel 4 invested £3 million (2014: £4 million) in the Indie Growth Fund and acquired minority shareholdings in four companies (2014: five). A further £2 million is committed for subsequent equity subscriptions in these companies at 31 December 2015.

Channel 4 set out two key aims when launching the Indie Growth Fund. Firstly, to provide access to funding for a broad portfolio of small and medium sized independent production companies based in the UK to help them grow and develop their business. Secondly, to put our capital to work in more remit-delivering ways and open Channel 4 up to sharing in the benefits of companies that go on to generate shareholder value in the medium term. Therefore, the Indie Growth Fund companies are held for investment purposes and it is not Management's intention to control these entities. The Indie Growth Fund companies have been classified as associates as Channel 4 generally has commitments to purchase more than 20% of the equity and voting rights in these entities. Where this is not the case, Management is satisfied that significant influence exists over these entities due to Channel 4's ability to influence, but not control, the financial and operating policies of these entities.

Management has reviewed the carrying value of the Indie Growth Fund as at 31 December 2015 and concluded that there were no indicators of impairment at the balance sheet date.

Of the £621 million total of programme rights recognised as expenses in 2015 (note 12), Channel 4 commissioned £6 million (2014: £10 million) of content from Indie Growth Fund companies which includes commissions sanctioned both pre- and post-acquisition. Channel 4 and the Indie Growth Fund companies have no balances outstanding to each other in respect of these transactions at 31 December 2015 (2014: £nil).

The Indie Growth Fund is comprised of the following entities incorporated in the United Kingdom:
